

Forex kitty up \$4.3bn

MUMBAI: India's forex reserves jumped \$4.307 billion to a new all-time high of \$655.817 billion for the week ended June 7. The kitty had jumped \$4.837 billion to \$651.51 billion in the previous reporting week. In the past few weeks, the reserves have witnessed handsome jumps. For the week ended June 7, foreign currency assets, a major component of the reserves, increased by \$3.773 billion to \$576.337 billion, the data released on Friday showed.

Jindal Stainless

NEW DELHI: Jindal Stainless on Saturday said Chromeni Steels Private Limited (CSPL) has become its wholly-owned subsidiary with immediate effect. The board of directors of Jindal Stainless has given approval for the acquisition of the remaining 46 per cent in Chromeni Steels.

Godavari IPO

NEW DELHI: Ethanol and bio-based chemicals maker Godavari Biorefineries on Saturday filed preliminary papers with Sebi to raise funds through an initial public offering (IPO). The proposed initial share-sale is a combination of fresh issue of equity shares worth ₹25 crore and an offer-for-sale of 65.27 lakh equity shares by promoters and an investor.

Amrut award

CALCUTTA: Amrut Distilleries has won five gold medals in the 'World Malt Category' at the International Spirits Challenge 2024 held in London. Brands from across the world, including Scotland, Ireland and Japan, participated in the challenge.

The kind of growth taking place in data centres and managed services globally is exponential

Hyundai files for \$3bn IPO

OUR SPECIAL CORRESPONDENT

Mumbai: Hyundai Motor's India unit sought regulatory approval on Saturday for a stock market listing in Mumbai which could be the nation's biggest and will see the South Korean parent sell a stake of up to 17.5 per cent in the company.

The IPO will make it the country's first car maker to go public in two decades since Maruti Suzuki in 2003, and would come just as Indian stock markets are trading near record highs.

The proposed IPO is entirely an offer for sale (OFS) of 142,194,700 equity shares by Hyundai Motor Company (HMC), according to the draft red herring prospectus (DRHP).

Hyundai Motor Company is looking to raise at least \$3 billion (₹25,000 crore) from the

BIG BANG OFFER IN WORKS

- The proposed IPO is entirely an offer for sale of 142,194,700 equity shares by Hyundai Motor Company
- Proceeds will go to the parent
- Hyundai Motor Company is looking to raise at least \$3 billion (₹25,000 crore) from the IPO. At ₹25,000 crore,

the IPO would be the largest, surpassing that of Life Insurance Corporation. The life insurer had come out with a ₹22,000 crore float in May 2022

■ This offer will also be the first initial share-sale by an auto maker in over two decades after Maruti Suzuki's listing in 2003

IPO. If this happens, it would be the largest, surpassing that of Life Insurance Corporation (LIC). The life insurer had come out with a ₹22,000 crore float in May 2022.

Hyundai Motor India is the country's second largest passenger vehicle car maker.

Hyundai counts India as a crucial growth market where it has two manufactur-

ing units and has invested \$5 billion, with commitments to pump in another \$4 billion over the next decade.

The world's biggest car market after China and the US is the company's third-biggest revenue generator globally.

The decision to go public is also influenced by Hyundai's strategy to address the 'Korea discount', a term used to de-

scribe the lower valuation of South Korean firms compared with their international counterparts.

By listing its India arm, Hyundai Motor Company aims to unlock higher valuations and attract a broader investor base.

"The Korean stock market has long encountered a valuation disparity, with lower valuations and inflated risk premiums compared with their global peers. This phenomenon, dubbed the 'Korea Discount', can be attributed to several factors, including corporate governance issues, capital allocation practices, and lack of transparency stemming from long-standing, family-run conglomerates, called Chaebols," said an analyst.

The Hyundai Motor IPO is expected to launch around Diwali 2024 given Sebi takes three to six months to accept or reject a proposal, according

to sources.

"This timing aligns with favourable market conditions and the festive season, which typically boosts investor sentiments," said a market analyst.

Banks such as JP Morgan, Citi, HSBC, and Deutsche Bank along with Kotak Mahindra Capital have been appointed as advisers.

The shares will be listed on the BSE and the NSE.

According to the DRHP, the company is now taking various initiatives which involve an aggregate investment commitment of ₹32,000 crore. It currently serves as a production and export hub for emerging markets for the parent, particularly for passenger vehicle models such as Verna and Venue.

The company has a plant in Chennai, which had an annual production capacity of 824,000 units as of March 31, 2024.

With inputs from Calcutta Bureau

Consultation on draft data rules to start soon

New Delhi: Drafting of rules under the data protection legislation is in an advanced stage with industry-wide consultations slated soon, Union minister Ashwini Vaishnaw said on Saturday, asserting that India will also look at doubling electronics production and adding jobs under the Modi 3.0 government.

Ashwini Vaishnaw

At the same time, the minister for electronics and IT assured that regulatory work will see "good continuity" and that the agenda on digital regulatory framework remains "intact". The timelines for semiconductor plants of Micron and the Tata group too are on track.

The process of implementation of the Digital Personal Data Protection (DPDP) Act will be based on the 'digital-by-design' principle, paving the way for a new way of working, and the work on creating this platform is also progressing. Such a platform or portal will be created in-house by the likes of NIC and DIC.

Parliament had passed the DPDP Act in August last year. This key piece of legislation aims to protect the privacy of Indian citizens while proposing a penalty of up to ₹250 crore on entities for misusing or failing to protect digital data of individuals.

"We had started the rules' drafting work around December. DPDP rules drafting is in a very advanced stage. We will start the industry consultation now and go as extensive as we can," Vaishnaw told reporters at a briefing.

Both the Telecom Act as

well as the DPDP Act had entailed extensive consultations, he said while promising that the rules of DPDP too will not be a rushed affair and will involve "as consultative a process as can be".

"In parallel, we are working on creating a digital-by-design platform so implementation can be done in a digital form, which is part of the Act," he said.

Vaishnaw, who took charge as minister for electronics and IT earlier this week, said he reviewed the work-in-progress on data protection rules and is happy with the outcomes. However, there will be tweaks and changes based on industry and stakeholder views, he said. The other big priority for the ministry is in the area of electronics production — where India has set its sights on becoming a global manufacturing powerhouse.

"In the last four months, queries have come on large players wanting to come in, on the process and modalities of setting up plants, and we have been directing them to OEMs so that OEMs and component manufacturers can have a synergy," he said.

Windfall tax on crude cut

New Delhi: The government has reduced windfall tax on domestically-produced crude oil to ₹3,250 per tonne from ₹5,200.

The tax is levied in the form of Special Additional Excise Duty (SAED).

The new rates are effective from June 15, an official notification said.

SAED on export of diesel, petrol and jet fuel or ATF has been retained at 'nil'.

India first imposed windfall profit taxes on July 1, 2022, joining a host of nations that tax super-normal profits of energy companies.

Traders lobby for GST amnesty

ASTAFF REPORTER

Calcutta: Traders' association the Confederation of West Bengal Trade Associations has written to revenue secretary Sanjay Malhotra seeking an amnesty scheme for Goods and Service Tax disputes.

According to the trade body, small businesses cannot keep pace with the changes made by the government to the GST through various amendments in the Acts and Rules and through developments on the GST portal, leading to many cases being booked for non-compliance or late compliance without the intent of fraud.

"A one-time Vivad scheme may be allowed for cases where showcause notices have been issued. We hope only 30 per cent of tax payment is demanded and a waiver is given for interest and penalty for the years 2017-18, 2018-19 and 2019-20," the trade body said in its letter.

"The mistakes made in filing returns be allowed for rectification and unclaimed credits under section 16(4) should be allowed for all these years," the letter said.

The trade body has also said that minor discrepancies in e-way bills should not attract penalties and in-spite of a 2018 circular specifying

instance of known/possible mistakes, penalties are being levied for clerical mistakes even in cases where there was no intention of fraud.

The traders have also highlighted instances where both SGST and CGST are resorting to enforcement action on the same issue and suggested that enforcement action should be taken by only one authority and the matter should be uploaded in the system to avoid subsequent action by the other authorities.

The finance ministry in 2020 had issued a similar amnesty scheme for dispute resolution for pending income tax litigations.

Meet on infra projects held

New Delhi: The Network Planning Group met on June 12 and evaluated three infrastructure projects from the roads, railways and urban affairs ministries, the commerce and industry ministry said on Saturday.

The projects were evaluated for their conformity to the principles of PM GatiShakti National Master Plan.

The three projects are the National Highway project in Jammu & Kashmir, Gudur-Renigunta third rail line in Andhra Pradesh, and Pune Metro line extension in Maharashtra.
