"The first sub-group on GDP growth aims to boost investments, manufacturing, exports and job creation, supported by Central viability gap funding for PPP projects," said Naidu. The second sub-group on population management should help India leverage its demographic dividend while preparing the country for future challenges such as ageing and low fertility, said the Chief Minister. Likewise, the third sub-group should focus on technology-driven governance, utilising AI, quantum computing, drones, and digital platforms for real-time citizencentric administration, said

Naidu also showcased his SwarnaAndhra@2047 sion, which aims to transform the state by 2047 to achieve a GSDP of \$2.4 trillion with a per capita income of \$42,000, ong other targets

Besides his proposals, Naidu paid tributes to the 26 victims of the Pahalgam terrorist attack on April 22, and lauded the Armed Forces' decisive retaliation through 'Operation Sindoor'. He also commended Prime Minister Narendra Modi's leadership during the crisis, emphasising India's resilience and self-reliance. The CM praised India's remarkable rise under the leadership of Modi over the past decade, highlighting the nation's progress from the world's 10th to and discussions. This decision signals a shift in how the government will interact with the film industry.

Following the grant of industry status to tourism, the coalition government plans to implement a similar package for the film industry. Pawan Kalyan will discuss this with the Chief Minister before a comprehensive film development policy is announced.

He has also begun looking into the operations of film theatres, including activities of certain exhibitors and distributors working as a group. Officials have informed him that some theatres are run by leaseholders rather than owners. Additionally, Pawan Kalyan has inquired about tax collections from cinemas, as well as hygiene, cleanliness, and food sales within the halls. He plans to discuss these issues further with Civil Supplies Minister Nadendla Manohar and Cinematography Minister Kandula Durgesh.

Earlier, it was reported that the Delhi-Srinagar IndiGo flight 6E 2142, which was caught in a sudden hailstorm near Pathankot on May 21, was denied entry into Pakistani airspace, which was sought by the pilot to avoid turbulence.

According to the crew's statement to the Directorate General of Civil Aviation, the pilot's request was dismissed by the Lahore Air Traffic Control. "On 21.05.2025, Indigo A321 Neo aircraft VT-IMD operated flight 6E-2142 (Delhi -Śrinagar). While cruising at FL360, aircraft entered hailstorm and severe turbulence near Pathankot. "Subsequently, they encountered a hailstorm and severe turbulence. The crew chose to continue on the same heading to exit the weather by the shortest route towards Srinagar. While in a thunderstorm cloud, warnings of Angle of Attack fault, Alternate Law protection lost, and backup Speed scale unreliable were triggered," DGCA said.

It said that due to updraft and down draft encountered by the aircraft, the Autopilot tripped, and the aircraft's speed had wide variations.

"As a result, maximum operating speed/maximum operating mach (VMO/MMO) warnings and repeated stall warnings were triggered. During this period the aircraft rate of descent reached 8500 fpm crew flew the aircraft manually till they exit the hailstorm," DGCA said.

"After carrying out all checklist actions (ECAM actions), the crew declared PAN PAN to Srinagar ATC and requested RADAR vectors and made a safe landing with Auto Thrust operating normally. There was no injury to any of the passengers on board the flight. Post flight walk around revealed damage to the Nose radome. The matter is under investigation by the DGCA," it added.

Earlier, IndiGo Airlines had issued a statement after the incident, saying, "IndiGo flight 6E 2142 operating from Delhi to Srinagar encountered a sudden hailstorm en route. The flight and cabin crew followed established protocol, and the aircraft landed safely in Srinagar. The airport team attended to the customers after the arrival of the aircraft, prioritising their well-being and comfort. The aircraft will be released post-necessary inspection and maintenance"
